

Peak Technologies is Your FedEx Ground Approved Vendor for Hand-Held Scanning Devices, Accessories, and Service

WITH PEAK TECHNOLOGIES you will get personalized attention

For over 35 years, Peak has been providing rugged mobile solutions and lifecycle management services for technology, such as the Zebra TC78, to companies just like yours.

GROW YOUR BUSINESS

Leave the rest to us

- Device Procurement
- Device Maintenance
- Device Repair/Support
- App Installs & Updates
- Cellular Data Services
- Peak Season Options

WE PROMISE IT'S AS EASY AS 1, 2, 3 Here's how it works

- 1 Choose your Device & Services Bundle** – We offer the ability to build your own bundle, where you choose your device and services. Or simply select one of our new, lower-priced, pre-built bundles. Every bundle includes what you need to get started out-of-the-box.
- 2 Choose Your Data Plan** – We're partnered with a world-class data solution provider for all of your data and connectivity needs. This is your one-stop shop for a reliable and fully-integrated mobile data plan that uses a multi-carrier SIM, allowing for optimum connectivity.
- 3 Lease or Buy** – All of our bundles are designed to be leased on a monthly schedule, on a cost conscious budget. If you prefer to buy your device outright, that's available too.

- ✓ Deployment Staging Services
- ✓ Preloaded FORGE Software
- ✓ MDM Remote Device Assistance
- ✓ 3 or 5 Year Repair Services
- ✓ Next Day Replacement Device Coverage
- ✓ Automatic App/Software Updates

See what other FedEx Ground ISPs have to say about Peak Technologies

Whether you have 5 routes or 500, we are your FedEx Ground approved vendor for compatible hand-held scanning devices, accessories, and services.

"The people at Peak have been absolutely instrumental in helping me get set up with STAR V, and have a good selection of program certified devices, accessories, and services – including data plans. Their staff is very knowledgeable – very understanding of our requirements and regular day-to-day operations. With their support services and device insurance, I figure I'm in good hands."

– **Will Lopez**, FedEx ISP, Lakewood, CA
Station ID: 901

"I would strongly recommend Peak to my fellow ISPs. My Peak reps have made my transition to the STAR V scanners very easy. They helped us fully understand all the available options for the scanners, data plans, support and accessories, which could have been a very daunting task alone. I am glad to be working with the Peak team and appreciate the time and effort they put in to help me make the best decision for my business."

– **Shehata Aly**, FedEx Contractor, Barrington, NJ
Station ID: 81

"My experience with Peak easier than I expected because it was a seamless process. Making a large investment such as an entirely new scanning system for our business was daunting and overwhelming at first. Working with Peak gave me confidence that we were making the right decisions. My Peak rep took the time to explain all the different packages they offer in an understandable way. Her follow-up and timely responses made the process efficient and quick. Their comprehensive packages allowed me to choose the one that best met our company needs. I would recommend Peak to all the other independent contractors working with FedEx."

– **Sheila Verna**, Furci Corp, Demarest, NJ
Station ID: 103

"My Peak rep has been great to work with. Peak offers a scanner that has a multi SIM card which will mean we should always have coverage no matter where our drivers are. My rep made the process very easy, she took the time to explain everything and was always available if we had another question. We are a new ISP and this was a little daunting, but Peak made it a good experience. In the end it was the scanner with the multi SIM card and Peak that made the difference."

– **Neil and Donna Vaughan**, Granite State Packaging Solutions, Lehigh Acres, FL
Station ID: 71
