Honeywell

OUR MISSION

Honeywell is committed to enable supply chain operations across industries to evolve their operations with assistive technology, intelligent data and business process optimization software that enhances the customer experience from order to deliver, improves the employee experience from recruiting to retention, and digitally transforms processes from automation to analytics.

30+ YEARS SUPPLY CHAIN DOMAIN EXPERTISE

Honeywell's unique portfolio of business intelligence software and labor productivity tools has been a driving force throughout the worldwide supply chain for more than 30 years, building on leading brands and technologies. Honeywell supply chain solutions are fit-for-purpose in a wide variety of fulfillment applications, cold storage facilities and demanding operations that need to transition their manual workforce to more automated, modern processes. Our flexible solutions empower workers to increase productivity, accuracy and efficiency while greatly improving their safety and overall job satisfaction.

Our focus is helping supply chain operations address today's most critical needs to prepare for the future allowing you to focus on what really matters: **Delivering exceptional customer experiences.**

PRIORITIES AND CHALLENGES FACING SUPPLY CHAIN OPERATIONS

CUSTOMER EXPERIENCE

Customer expectations have pushed supply chain operations to become faster, more accurate, and more accountable for product shipments. As a result the search for technologies designed to keep customers informed throughout the buying process and the need for supply chain visibility is a top area of investment.

WORKFORCE PERFORMANCE

Operations need proactively remove barriers to productivity and minimize worker fatigue for their current workforce to control costs and navigate widespread labor shortages. Investments are being made in digital technology to augment the worker to enable them do to the work and used to upskill workforce faster.

BETTER OPERATIONAL EFFICIENCY

Data-driven decisions is the path forward! Data provides the operational visibility to manage and streamline increasingly complex operations and deal with upsets as ecommerce demands grow, delivery times expectations compress, and labor shortages continue. Software that delivers data and analytics on assets, inventory and workflow performance is in demand.

HARNESSING INNOVATION AND AUTOMATION

Supply chain operations are preparing for the future and utilizing technologies that will continually improve the customer experience, cut costs and reduce labor demands. Technologies range from augmenting the worker, robotics, automation and modernized software platforms with ML and AI.

OPTIMIZE YOUR SUPPLY CHAIN OPERATION WITH HONEYWELL SOLUTIONS

Honeywell gives you end-to-end technology solutions that easily connect your people, assets, and processes to drive greater productivity, agility, and efficiency throughout your supply chain and DC.

RECEIVING:

The receiving process is arguably the most important process in the DC: All downstream workflows depend on the accuracies and efficiencies achieved during receiving. Equip receiving workers with the right combination of software and products designed to receive products quickly and accurately; capture data instantaneously to catch errors upon receipt of inventory; and provide direction for the workflow in an automated manner.

SUPPLY CHAIN BEST SELLERS

Honeywell is focused on delivering solutions that improve productivity for a range of supply chain workflows. Our solutions empower workers to manage large amounts of information, report status updates and problems, access organizational knowledge and interact with their colleagues seamlessly. From voice solutions and software to long-range scanners, printers, and mobile computers, Honeywell's suite of innovative productivity solutions can help streamline touch points throughout the supply chain.

MOBILE SOLUTIONS FOR MOBILE WORKERS

Highly mobile workers in DC and warehouse operations need their devices to keep them on-the-move. Honeywell's mobility devices combine the familiar feel of consumer devices and high-end mobile computers and tablets into single, enterprise-grade packages. Enable devices to last up to two full shifts, our mobile solutions are backed by our durable, stable and secure Mobility Edge™ platform.

ERROR-PROOF YOUR WAREHOUSE WITH THE INDUSTRY'S MOST ADVANCED ULTRA-RUGGED MOBILE DEVICES READY FOR THE TOUGHEST ENVIRONMENTS.

MOBILITY

Handhelds

CT45 XP

The CT45 XP offers an integrated, repeatable, and scalable approach based on a common hardware and software Mobility Edge platform – achieving enterprise stability and security via incorporating a powerful Qualcomm processor that is guaranteed to support from Android® 11 throughout Android 13, Android 14 and 15 are committed subject to feasibility. The CT45 XP can also be converted into a wearable simply by adding an arm band and ring scanner or pairing with Honeywell’s Guided Work voice technology.

POWER UP WITH:
8675i, Guided Work, Operational Intelligence

CT47

The CT47 is released with the latest 5G and Wi-Fi 6E technology to stay connected in both indoor and outdoor environments. 5G offers the highest bandwidth and lowest latency available for transport and delivery workers, and also within a warehouse to always stay connected.

POWER UP WITH:
8675i, Guided Work, Operational Intelligence

POWER UP WITH:
8675i, Operational Intelligence

MOBILITY

Handhelds

CK65

Built on the Mobility Edge platform, the CK65 minimizes total cost of ownership like no other product on the market by future-proofing your investment with support through Android R (Android 11). Its ultra-rugged design can withstand 3-m (10 ft) drops to concrete; as well as being rated to IP65 and IP68, the CK65 is durable in even the toughest DC environments. The CK65 even offers cold storage models for freezer environments and non-incentive (NI)/ATEX models for areas with hazardous gases. It features a 6803 scanner with dual lens capturing near, mid/far range with no moving parts

POWER UP WITH:
Operational Intelligence

EDA61K - HONEYWELL'S ECONOMICAL SCANPAL

Honeywell ScanPal™ EDA61K is an enterprise-class mobile computer that provides reliable and secure connectivity between frontline workers and backend systems. Its lightweight and slim design means that users can easily operate it single handed and can be comfortably carried all day, even in a pocket.

POWER UP WITH:
8675i, Operational Intelligence

MOBILITY

Vehicle Mounted

THOR VM1A

The VM1A, built on the Android and Mobility Edge platform, is a rugged vehicle mounted computer built tough to handle harsh warehouses, ports and intermodal and manufacturing environments. Best option if you want to upgrade to a more visual modern interface.

POWER UP WITH:
Granit XP 199Xi XR/XLR

Tablet

RT10

The Honeywell RT10A rugged tablet is designed for rapid user adoption, minimized TCO and optimized device management. Whether you're a supervisor or a shop floor employee, a manager or a maintenance worker, the RT10A is ready to fit into your daily workflow.

POWER UP WITH:
Granit XP 199Xi SR/XR/XLR

WEARABLE TECHNOLOGY

In mobile workflows, less wasted movement produces greater efficiency. This is especially true for tasks like picking workflows, large package handling, sortation, truck loading and other common workflows in warehouse, and transportation and logistics operations. With Honeywell wearable computers and scanners, there's no need for your mobile workers to find, pick up, and set down a handheld scanner. And with greater efficiency comes greater productivity, helping your business keep pace with demand, while reducing labor costs. Browse our selection of wearable computers below.

WEARABLE TECHNOLOGY

Wearable Computer

CW45

Setting a new standard in hands-free productivity and performance for the frontline worker. Built on the Mobility Edge for longevity and with FlexRange scanning distances, CW45 is a powerhouse wearable computer helping empower workers to improve transaction speed and throughput.

CT45 XP

Easily convert the CT45 XP into a wearable computer with the addition of an arm band. Now it can be used two ways - a wearable or a handheld.

POWER UP WITH:

8675i, Guided Work, Operational Intelligence, SRX3 Wireless Headset

POWER UP WITH:

Guided Work, Operational Intelligence, SRX3 Wireless Headset

WEARABLE TECHNOLOGY

Wearable Scanner

8675i

Fast and accurate tracking of goods is critical to efficient operation for order fulfillment and inventory management. With FlexRange scanning distances, 8675i enables wearable scanning in applications that would have previously required a handheld device.

POWER UP WITH:

CW45, CT45, Guided Work, Operational Intelligence

8680i

The 8680i Wearable Mini Mobile Computer is a cost-efficient solution driving enhanced productivity through a direct wireless connection to the host and interactive display.

POWER UP WITH:

CW45, CT45, Guided Work, Operational Intelligence

8690i WEARABLE RFID MINI MOBILE COMPUTER

The Honeywell 8690i wearable device is a compact, high-performance, hands-free mini mobile computer for your business that will help you improve workflow efficiency and reduce costs. Industry-standard EPC Global Class 1 Gen 2, RFID reader ensures that the 8690i can read all common supply chain RFID tags.

POWER UP WITH:

CW45, CT45, Guided Work, Operational Intelligence

WEARABLE TECHNOLOGY

Voice Automated Solutions

Voice Headset

GUIDED WORK

Honeywell's Guided Work solution is a flexible platform that provides options from general purpose, purpose built or a hybrid of technologies. Voice software performs on Andriod, iOS and Honeywell foundational Talkman series.

A700 SERIES

Today's DCs require optimized and flexible solutions that maximize technology investments and empower mobile workers. Honeywell's A700 series of voice-enabled mobile devices help deliver hands-free and eyes-up efficiencies that help your workers increase workflow productivity and accuracy.

SRX3 WIRELESS HEADSET

The SRX3 Wireless Headset features the next generation in Bluetooth® wireless headset technology – raising the standard in mobile workforce ergonomics, productivity and accuracy while enabling voice-directed workflow efficiencies. Superior speech-recognition technology and flexible configurations empower your mobile workforce to excel in a variety of industrial applications as well as demanding warehouse, distribution and fulfillment environments.

SR-35 WIRED HEADSET

SR-35 wired speech recognition headsets are purpose-built for voice-enabled applications, offering wired options that support the unique needs of freezer environments, high-noise environments and hard hat workers.

POWER UP WITH:
CW45, CT45 XP, 8675i

POWER UP WITH:
SRX3 Wireless Headset,
SR-35 Wired Headset

INDUSTRIAL SOLUTIONS FOR INDUSTRIAL DEMANDS

State-of-the-art scanning systems are a necessity for today's distribution centers and mobile workforces. Throughout Honeywell's years of innovation in the industry we serve, we've developed a variety of scanners to meet your every need and to help you achieve better outcomes.

ULTRA-RELIABLE INDUSTRIAL AND WEARABLE SCANNERS.

Even in challenging working environments, you can trust our handheld, industrial-grade barcode scanners to provide superior durability and reliability. Our scanners are encased in waterproof and dustproof housings and rubberized to reduce damage from falls or tumbles, providing a long life cycle and low cost of ownership. Our scanners are perfect for fastpaced, high-volume barcode scanning.

INDUSTRIAL SCANNERS

Handheld

THE GRANIT XP 199Xi SR/XR/XLR

The Granit™ XP SR, XR, XLR handheld industrial scanners are designed to offer premium scanning performance and full range scanning depth to drive efficiency and reliability in mission-critical applications. Its high durability supports low TCO. The new Granit XLR is form-fit for a variety of workflow applications from no-sacrifice near field scanning to extreme long range scanning operations enhancing workflow productivity.

POWER UP WITH:
VM3A, VM1A, RT10, Operational Intelligence

INDUSTRIAL SCANNERS

Wearable Scanner

8675i

Fast and accurate tracking of goods is critical to efficient operation for order fulfillment and inventory management. With FlexRange scanning distances, 8675i enables wearable scanning in applications that would have previously required a handheld device.

8680i

The 8680i Wearable Mini Mobile Computer is a cost-efficient solution driving enhanced productivity through a direct wireless connection to the host and interactive display.

Industrial Fixed Mount

HF810/11

Fixed-mount scanners equipped with a liquid lens enabling automation to track, trace and control movement of goods throughout DCW workflows. With Honeywell's enhanced technology in encoding and decoding, HF810 and HF811 Fixed-mount 2D Industrial Scanners offer powerful performance, including DPM capabilities, in a compact form factor that can be networked to build a complete manufacturing or warehouse management solution for end users.

CONSISTENT SOLUTIONS FOR CONSISTENT WORKFLOWS

From desktop to industrial to mobile, Honeywell printers are the clear choice for a wide variety of labeling applications. The built-in “smarts” of our industrial printers mean greater efficiency and lower cost, with wired and wireless solutions for all high-demand printing needs. Our industrial printers are quiet, compact, intuitive and reliable – with a range of configurations designed to excel in your business environment. Our mobile printers are built to withstand punishing field conditions, enabling a full day of printing without recharging.

Built on Honeywell Printer Edge™, a smart connected printer platform with easy setup, quality output, enhanced security, and the simplicity of a single software toolkit for your printer network.

| PRINTERS

Industrial

PM45/45C

The PM45 printer is the first industrial printer with W WAN connectivity designed for M2M and IoT applications. Asset Intelligence MDM tool provides predictive analytics and data on printer health, while SOTI and PrintSet MC are also supported. Smart printing capability allows users to configure and print without the need for a host computer.

POWER UP YOUR PRINTERS WITH:
Operational Intelligence

PD45/PD45S

The PD45 is a commercial grade industrial printer, which is suited for manufacturing, transportation and logistics, and government applications. The PD45 is available with standard features such as smart printing capability, in which users can configure and finetune settings without the need for a host computer by running apps right inside the printer – minimizing the need to connect to a PC.

POWER UP YOUR PRINTERS WITH:
Operational Intelligence

VOICE AUTOMATED SOLUTIONS

Continuing our legacy as a pioneer in wearable technologies, Honeywell voice automated solutions are fit-for-purpose in a wide variety of fulfillment applications, cold storage facilities and demanding operations that need to transition their manual workforce to more automated, modern processes. Our solutions are highly configurable voice recognition platform including trainable pick-up and go for Android and Talkman, ideal for rapid onboarding new workers.

OUR SIGNATURE PLATFORMS

SUPPLY CHAIN

MOBILITY EDGE

By definition, the Mobility Edge platform strengthens security, accelerates deployments, extends the life of your solution, and optimizes business performance. By design Mobility Edge is built to enable seamless evolution, allowing supply chain operations to realize even greater efficiency, simplicity and opportunities to innovate and grow with confidence. When your operation is invested in mobility solutions, you need a durable, stable and secure platform to maximize and protect that investment. As an innovative leader in supply chain, you need to stay on top of emerging technology. Stay ahead of the curve. Ahead of the competition. Today and in years to come.

WORKFORCE INTELLIGENCE

Honeywell Workforce Intelligence delivers a cloud-based, modular SaaS solution designed to optimize worker and asset performance for critical workflows. Utilizing an easy to deploy, scalable, and configurable data model powered by Honeywell Forge, Workforce Intelligence is designed to minimize unproductive downtime, increase employee communication and collaboration, and deliver real-time performance insights. With the ability to recognize efficiency opportunities and orchestrate optimum solutions you can now unlock worker productivity & utilize gains.

OPERATIONAL INTELLIGENCE

Honeywell Operational Intelligence provides actionable insights into critical areas such as mobility devices, printer usage, and network connectivity. These insights can be turned into automated workflows that optimize warehouse processes for greater productivity.

PRINTER EDGE

Efficiency and reliability of printing operations are essential for successful workflows. Honeywell Printer Edge provides centralized management and real-time monitoring of your printer network and may help reduce printer downtime and improve the speed and accuracy of printer operations. With effortless integration, a user-friendly interface, enhanced security, and a single software toolkit, you can keep your operations running smoothly while helping reduce costs and maximize productivity.

COLLABORATING WITH HONEYWELL

Honeywell has been serving the supply chain and DC market for over 75 years, and we are dedicated to continuing our support of operational innovation. When you team with Honeywell, you benefit from the depth of industry knowledge and expertise that our teams have crafted and refined. Our solutions are designed to help you stay on the forefront of operational and supply chain technology. Our team-oriented support and service is aimed at helping you address your most critical needs. Honeywell has engineered a broad portfolio of software, platforms, and devices designed to improve critical workflows within distribution centers and manufacturing supply chains. Our solutions are tested across thousands of customer deployments worldwide to help increase staff productivity, efficiency, and accuracy.

About Peak Technologies

Peak Technologies delivers end-to-end enterprise mobility, managed services, printing and mobile data capture solutions for performance-driven organizations focused on the optimization of supply chain and field-based business processes. Peak Technologies' in-depth industry-specific experience, state-of-the-art solutions and managed services, and exemplary customer support provide transformational business solutions and results that deliver greater ROI and outstanding value. Peak Technologies serves as a trusted business partner for some of the world's largest companies, while also supporting local and regional customers with an extensive coverage footprint throughout North America and Europe.
